

Nov 5th 1864 Sabbath Evening

My dear Parents,

I have been to Tebeauville to Sabbath school this morning & there learned that a Flag of Truce was to leave Savannah, every day this week, so I hasten to tell you that we are all well, thanks to our kind Father in Heaven. I hope this may reach you in time to return me an answer before the Exchange at Savannah ceases. I think if Luther would take a little pains to find out how, you might send me letters oftener, my Sisters might write too. I should think, much love to them & theirs. Also to Hattie, ask her why she don't write? The Dr. and I are children's only teachers. This with many other duties keeps heart & hand busy. I regret that they have not better opportunities but God will send them in his own good time. They became much interested in the Sabbath school, I have been taking all five but we have had to stop them for a while on account of whooping cough being in Tebeauville! I had the Bible-class, consisting of four young ladies & four young gentlemen. My thoughts have been with you much lately & my night visions, have been full of home my childhood's home & early companions.

I trust in God we shall yet met face to face in this world. If not may we all by true repentance & faith in the Son of God, meet in that better land.

All send love.
Ever yours,

Sarah
